

About Google Apps:

Email on your company domain: Keep the same email addresses you use now. With 25GB of storage per user you never need to delete an email again!

Fully hosted: No need for costly servers and maintenance contracts

Top-level security and easy administration

Access your data anywhere, from any computer or mobile device. You can even continue to use Outlook

Google Apps Marketplace: Add in additional systems, such as CRM and accounting systems with one click

Virtual server: Store and share your files online, and access them from anywhere

About CloudSource Solutions:

CloudSource Solutions are a Google Apps partner company with clients across Europe and North America.

We work closely with Google and assist our clients with:

- Set-up: Complete low cost set-up of Google Apps. Including moving all your existing email accounts, calendar and files to Google Apps
- Support: With our low cost English speaking support centre in the Czech Republic we can quickly solve any technical problem or user issue
- Training: Training with Google certified trainers

Please contact us anytime. We are always happy to provide references from our corporate clients.
